

# #DARE TO CARE

## Title

#DARETOCARE - a commitment for peace

## Description

**#DARE TO CARE** is part of the plan of global initiatives – Pathways, promoted by the Youth for a United World. It invites us to “take care, take an active interest, give importance. To whom? To the most vulnerable, to the planet, to our city, to our neighbors, to the problems of our society”.

(<http://www.unitedworldproject.org/en/daretocare/>).

One of the instruments that can help put this proposal into practice is the **dice of peace**, whose phrases encourage people to engage in actions that promote change.

[Living Peace International](#) invites you to undertake a path of active citizenship that will enrich the didactic/training path and reinforce the use of the dice of peace.

## Recipients

Children, youth, and adults, from schools, universities, youth groups, movements, associations, etc.

## Goal

- Increase empathy with those who suffer, near or far
- Strengthen the ability to detect needs by paying attention to situations of particular fragility in their own contexts
- Value the characteristics of young people to carry out actions aimed at the common good
- Underline the different sensibilities and teamwork
- Value the contribution and the specificities of each one within the group/class

## Activity

1. Throw together the dice of peace ([see attachment](#)).
2. Based on the phrase that emerges, the trainer/leader or teacher promotes a reflection together with the participants on the meaning that this phrase means in their own context, individually and collectively (in the family, school, university, neighborhood, association, etc.), to support a concrete action of active citizenship.

**#DARE  
TO CARE**

3. Share everyone's reflections through a mural that can also be virtual (for example, the padlet <https://padlet.com/>).
4. Based on the reflections, the class/group decides to create a collective action together or supports already existing actions that promote the care of others and the surrounding environment, in order to implement the motto #DARETOCARE.
5. Instantly document each of the above steps with photos/videos, publishing them on Facebook or Instagram with the following text:

**#LPDARETOCARE**

**#DARETOCARE**
